

MISSION POWER SENTINEL POWER CUBE

Compact hydrogen power for everyday backup and outdoor use

Simple Benefits

-  Quiet operation
-  Plug-and-play setup
-  Refillable hydrogen cartridges
-  Lightweight and easy to carry
-  No grid connection required
-  Zero-emissions power at point of use

What It Can Support

- LED lights and essential small devices
- Communications and charging
- Laptops and small electronics
- Temporary power where grid access is limited

Everyday Uses

SENTINEL Power Cube is designed for compact backup and off-grid power in everyday settings. It can support camping and outdoor activities, home outages, city field teams, remote and Indigenous communities, emergency kits, and mobile work sites.

Best Fit Applications

Clean Energy
Hydrogen power with zero emissions at the point of use.

Safe & Reliable
Engineered for stable performance and dependable power.

Easy to Use
Simple controls, quick setup, and minimal maintenance.

Sustainable Choice
Refillable cartridges and long service life reduce waste.

Ask about pilot projects, demonstrations, and deployment options.

EVERYDAY USES

HOMES DURING OUTAGES

Keep essential devices running when the power goes out.

CAMPING

Enjoy the outdoors with reliable, clean power.

OUTDOOR ACTIVITIES

Power your gear wherever you go.

EMERGENCY KITS

Be ready for unexpected situations.

CITY FIELD TEAMS

Portable power for on-site work.

REMOTE OR INDIGENOUS COMMUNITIES

Supporting reliable power in all regions.

TECHNICAL SPECIFICATIONS

Size: 8 x 8 x 8 inch

Weight: 15 lb

Runtime: 8 hr

Load Time: Less than 30 seconds

Battery Capacity: 250 W

Temperature: -20°C to +50°C

Zero Emission

Clean Energy

Hydrogen power for a cleaner future.

Safe & Reliable

Engineered for peace of mind.

Easy to Use

Simple setup.
Power in seconds.

Sustainable Choice

Clean power today for brighter tomorrows.

FALCON

DRONE RANGE EXTENDER

- ✓ Plug-and-play range extender for compatible drones
- ✓ Up to 5x extended flight range
- ✓ Low noise, zero-emission operation
- ✓ Quick swap hydrogen cartridge system
- ✓ Reliable in cold-weather missions
- ✓ Lightweight modular design

Applications

FALCON supports inspection, mapping, remote operations, public safety, industrial monitoring, and mission-critical drone use where longer endurance and quiet, clean power matter.

Best Fit Applications

INSPECTION

MAPPING

PUBLIC SAFETY

REMOTE
OPERATIONS

INDUSTRIAL SITES

DEFENSE

HIGH EFFICIENCY MOTORS
Optimized for longer flight.

PREMIUM DESIGN
Lightweight. Durable. Reliable.

HYDROGEN CARTRIDGE
Quick swap. More flight time.

PORTABLE HYDROGEN POWER FOR EVERYDAY RESILIENCE

About Rise Mission Power

Rise Mission Power has developed a zero-emissions, portable power generator for municipal, emergency, field, and off-grid applications. Engineered and built in British Columbia, our systems are quiet, rapidly deployable, and designed for reliable operations. We welcome opportunities to support municipalities through product trials and clean-energy pilot programs.

Why It Matters

Reliable backup power when the grid is down

Quiet operation for neighbourhoods and public spaces

Zero-emission energy at the point of use

Portable design for fast deployment where power is needed

MUNICIPALITIES

UTILITIES

COMMUNITIES

HOMES

SMALL BUSINESSES

Ideal for municipalities, utilities, remote and Indigenous communities, emergency response, homes, and small businesses.

TITAN PORTABLE GENERATOR

Clean backup power for everyday and emergency use

Simple Benefits

-  Quiet operation
-  Plug-and-play setup
-  Refillable hydrogen cartridges
-  Portable and easy to move
-  No electric Power Required
-  Zero-emissions power at point of use

What It Can Support

- Lights and essential devices
- Communications and charging
- Small tools and field equipment
- Temporary power where grid access is limited

Everyday Uses

TITAN is designed for practical backup power in real-world settings. It can support city operations, utility and service crews, remote and Indigenous communities, home backup during outages, community facilities, events, and mobile work sites.

Best Fit Applications
